## PTOE 20th Anniversary

### PTOE Celebrates 20th Anniversary

February 2019 marks the 20-year anniversary of the first exam given for the Professional Traffic Operations Engineer® (PTOE) certification. The Transportation Professional Certification Board is proud to recognize the following individuals who passed the exam in 1999 and still hold the certification today.

Certification as a PTOE is a powerful demonstration of requisite knowledge, skill, and ability in the specialized application of traffic operations engineering. The certification process, which has been adopted for professional traffic operations engineers, requires that the holder be a licensed professional engineer if he or she practices in the United States, Canada, or any other country that provides governmental licensing of engineers.

## **TPCB Board Member Profile: Deborah Snyder, P.E., PTOE**

Deborah L. Snyder, P.E., PTOE, is the Public Works Director/County Engineer for the Sumter County Board of County Commissioners in Sumter County, Florida. She has 32 years of civil engineering experience with more than 22 years working as a traffic/transportation engineer. Her experience includes 18 years working for the Florida Department of Transportation, 7 years working for City and County government agencies, and 7 years working in the private sector as a Senior Traffic Engineer or Senior Transportation Engineer.

Deborah has been a PTOE since 2012 and has been involved in TPCB since January 2018. She is a current member of the Institute of Transportation Engineers and was one of the expert panel, writers, and voting committee members for the ITE *Trip Generation Handbook*, 3rd Edition.

As an engineer with such vast experience, when deciding to run for the TPCB board, Deborah says she was interested in being more involved with ITE but not in the traditional chapter or section role. Certification is important to Deborah because "it requires you as a professional to stay active and up-to-date in your profession. In the private sector certification is important to give a competitive edge as it shows you are up to date with your profession. For some people it could be a matter of personal and professional pride, because they studied and passed a difficult exam to gain the certification."

## **ITE Utah Chapter Annual Meeting**

Outgoing TPCB Board Member Tim Harpst attended the ITE Utah Chapter's Annual meeting on January 24, 2019. More than 200 attendees received an update on TPCB activities from Tim. Tim stated, "Much interest was expressed regarding the recently updated PTOE and PTP exams and the new Road Safety Professional certification. Descriptions of each certification were presented, along with the deadline of April 4 for applying to take the exams. Attendees were directed to the TPCB.org website for exam applications and answers to FAQs."
