Certification Testimonial: Fehr & Peers

“Fehr & Peers is excited for our growing multi-modal safety practice and the opportunities that brings to improve communities where we live and work.

Many of our staff obtained their RSP certification in 2020, and we look forward to additional certification going forward to support staff education and development and offer our clients high quality service that reflects the current best practice.”

TPCB Exam Schedule 2021

Computer-based exams for PTOE, PTP, and RSP may be taken during the following three time frames:

June 1 to 30, 2021 [Applications must be received by midnight, April 2, 2021]

October 1 to 31, 2021 [Applications must be received by midnight, Aug 4, 2021]

February 1 to 28, 2022 [Applications must be received by midnight, Dec 2, 2021]

Please note that applications received after the deadline will require an additional \$75 late fee to process the application in addition to the application and examination fee that must accompany the application. We will try to accommodate late applications but there is no guarantee we will be able to do so. For more information please [visit the TPCB website](#).

For a list of available exam cities please visit: scantron.com/test-site-cities

ITE Journal: Road Safety Professional Certification

There have been tremendous advancements in the area of road safety over the past two decades. Practices such as Vision Zero, Toward Zero Deaths, and the Safe System approach have helped foster a culture of road safety in the United States, Canada, and many other places in the world, leading to transportation safety being more widely recognized as a discipline within the profession. These principles are reinforced by local municipalities, provinces, and states implementing data-driven strategic road safety plans, all with the goal of achieving fewer serious injuries and deaths on roadways.

The need for a science-based approach to road safety—one that incorporates the quantification of the expected road safety consequence of decisions based on evidence-based knowledge and experience, recognizing the intrinsic relationships among road design, traffic engineering, human behavior, vehicle type, emergency services, and user interaction with the road—has become prominent as more road authorities and public attention are increasingly focused on road safety.

Virtual Opportunities to Earn PDH Credits to Renew Your Certification

Below is a list of professional development webinars from ITE that offer PDH credits.

JANUARY 2021

01/20: [NaTMEC: Validating and Leveraging Probe Data to Understand Travel Patterns and Identify Candidate Operations Projects](#)

01/26: [Running Successful Student Chapters: Experiences from NYU and Cal Poly SLO](#)

01/28: [Smart Columbus Program: Multimodal Trip Planning Application \(Pivot\) Webinar: Test Plan and Results and Go-Live](#)

FEBRUARY 2021

02/02 [Road Safety Fundamentals \(6 of 10\): Human Factors](#)

02/04: [Sustainable Transportation: Advanced Vehicle Technologies, Electrification, and Next-Generation Mobility](#)

02/09: [How to Successfully Teach During a Pandemic: Contrasts between Audiences of College Students and Working Professionals](#)

02/10: [COVID Effects on Transportation](#)

ITE Podcast

[Professional Development in a Virtual World with Shelley Row - Founder, Blue Fjord Leaders](#)

Shelley Row, P.E., CSP, CEO, and Founder, Blue Fjord Leaders, discusses effective professional development within this new virtual landscape brought on by COVID-19. Hear her advice for those wanting to develop their leadership traits and perspective on how well transportation professionals have adapted their communication and interpersonal skills to the new environment. As the facilitator for LeadershipITE, she also highlights the adaptation of LeadershipITE to the virtual format for 2021 and discusses the engaging features that participants can expect from the program.
